Jim Russell  
JPR Builders

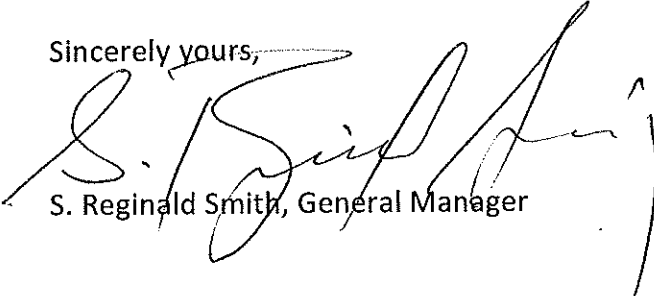

Dear Jim:

I want to tell you how pleased we are with the remodeled guest room baths and corridors you completed for us this past spring. The results are even better than we had planned and our guests are equally complementary of the upgrades.

When we started out with a very rough idea of what we wanted to accomplish, your assistance and experience were so valuable in coming up with the final plan. Your crews were very professional, worked "clean" and kept us very informed of progress and choices along the entire process. The result was a quality remodel of 12 upscale hotel rooms delivered on time and on budget which was critical to our overall business plan. The corridor remodel kept the historic theme of the hotel while presenting a fresh and "upscale" look for these "tired" areas of the property.

We are already planning some new projects for next year and you can be sure we will be calling you for some indoor work next winter. Thank you again from all of us at Stafford's Hospitality.

Sincerely yours,

  
S. Reginald Smith, General Manager
